

International and European Sport Organisations Activate Citizens

PRESENTATION

International and European Sport Organisations (ISOs) are at the core of the sport delivery systems Europe and worldwide, the governing bodies of their respective sport disciplines.

Yet, their potential to influence Sport for All and physical activity participation at the grassroots is mostly untouched. INTERACT (International and European Sport Organisations Activating Citizens) is co-funded by the Erasmus+ Programme of the European Union and aims to support and position ISOs as key leaders of the Sport for All and physical activity movement – developing innovative ways to engage stakeholders and citizens at all geographical levels.

AIMS

01

To gather ISOs and develop a new delivery system that places participation in Sport for All and physical activity at its core

03

To define how ISOs can better contribute to the objectives of key European and International policy papers

02

To reflect on how to adapt sports, their rules, settings, delivery, etc. to the needs of target groups and grassroots sport participation

04

To support ISOs develop their own Sport for All policies, strategies, structures and practical activities

05

Ultimately, to activate citizens !
